---

**WHEREAS**, on May 2, 2006, the State Water Resource Control Board adopted Order No. 2006-0003-DWQ requiring all federal, and state agencies, municipalities, counties, districts, and other public entities that own or operate sanitary sewer systems greater than one mile in length that collect and/or convey untreated or partially treated wastewater to a publicly owned treatment facility in the State of California comply with the terms of this order to eliminate Sanitary Sewer Overflows.

**WHEREAS**, such order requires each municipality to prepare and implement a Sewer System Management Plan (SSMP) that will include provisions to provide proper and efficient management, operation and maintenance of sanitary sewer systems, while taking into consideration risk management and health benefits. The plan shall be reviewed and updated consistent with the requirements as described in the Order.
